REQUEST FOR QUALIFICATIONS FOR SERVICES RELATING TO
THE DESIGN OF A NUTRIENT-REDUCTION WETLAND RESTORATION

GRASSY ISLAND WETLAND RESTORATION PROJECT
QUESTIONS RECEIVED TO DATE: January 9, 2020

1. Does the total project cost of $700,000 include both the design costs and the construction costs of the wetlands?
   Answer: No, the total project cost of $700,000 is for design only.

2. Is 15% DBE involvement required to be achieved during the design/analysis phase, or could that be achieved by proposing to utilize DBE firms once the project goes to bid for construction?
   Answer: Yes, the 15% DBE goal applies to the design/analysis phase.

3. Does the 15% goal only pertain to DBE firms?
   Answer: The 15% goal may be obtained by utilizing City or State Certified DBE/MBE/WBE firms.
